

## GOVERNOR BLACK WINS IN DEMOCRATIC PRIMARY

Return Slow Coming In—Road Tax Defeated Third Time In Ohio County

Ohio County Vote	
J. D. Black	813
Carroll	463

Louisville, Ky., August 4.—With only thirteen counties missing Governor Black's lead over Judge John D. Carroll has increased to 18,500 and complete returns probably will swell it to 20,000.

There seems to be no doubt that the following have been nominated, although several candidates have not conceded defeat:

Lieutenant Governor—William H. Shanks, Stanford.

State Auditor—Henry M. Bosworth, Lexington.

Attorney General—Frank E. Daugherty, Bardonia.

Secretary of State—Matt S. Cochran, Lexington.

Clerk Court of Appeals—John A. Goodman, Elkton.

Commissioner of Agriculture—John W. Newman, Versailles.

State Treasurer—Henry F. Turner, Wickliffe.

Superintendent Public Instruction—L. E. Foster, Hopkinsville.

Mayor Burns, of Paducah, won for Railroad Commissioner, with a plurality of between 2,000 and 3,000 with N. B. Gordon, Madisonville, second.

Judge Daugherty's victory in the Attorney General race apparently was clinched by additional mountain returns today. He will win by at least 2,000, though Ryland C. Musick has not conceded defeat.

Thomas Rhea is tipped as state campaign manager this fall.

Causing Much Comment

The election of King Swope, Republican, a returned soldier, in the Eighth Kentucky district, to congress in connection with Saturday's statewide primary for the nomination of state officers, continued to be a live topic in Kentucky political circles today. It was the first time in 25 years that a Republican had been elected in that district. The seat was left vacant by the death of Harvey Helm, Democrat.

Primary In Ohio County

The primary election Saturday was a tame affair in Ohio County and but for the interest taken by the advocates of the road tax would not have been noticed as an election day. Governor Black carried the county by good majority, and the road tax was defeated by 40 votes.

Following is the rate by precincts on the road tax question:

## W. C. T. U. HEAD SAYS ANTI-TOBACCO FIGHT OFF

Union Opposes Weed, But is Busy In Its Anti-Liquor Fight

Lexington, August 4.—Mrs. Frances E. Beauchamp, State president of the W. C. T. U., to-night denied the New York story that that organization is conducting a campaign to secure enactment of anti-liquor laws in all States.

She said the W. C. T. U. has forty departments, one of which is anti-narcotic, and tobacco is classed as narcotic. However, she said, the campaign against tobacco is not being pushed as vigorously as it was ten or fifteen years ago, principally because of the fight on liquor.

"I would be glad," she said, "to say we are conducting a vigorous campaign against tobacco, but we are not." She said the \$1,000,000 drive begun last March was not to fight tobacco, as charged by the Association Opposed to National Prohibition.

This money, she said, is to be used principally for the Americanization programme and to help the weaker organization in the forty-six foreign countries, where they are maintained. She said the money is to be used principally against alcoholic liquors.

## SAYS FARMERS MUST ORGANIZE FOR HEALTH

Morgan Hughes Urges the Necessity of Community Spirit in Counties

Springfield, Ky., Aug. 4.—That each rural community should have a trained nurse employed solely to look after its needs and carry out policies from a standpoint of community health, is the belief of Dr. S. E. Brewster, of Cleveland, representative of the American Red Cross, who spoke to-day at a meeting of farmers of Washington county and their families at the farmers' chautauqua.

"The Red Cross," he said, "stands ready and willing to supply the nurses, and it is only through this organization that a sufficient number can be supplied." Dr. Brewster spoke at length on community co-operation for health and prevention of disease. He appealed to parents to deal frankly with their boys and girls in discussing social diseases, and to have the way for organization of health clubs.

Geoffrey Morgan and Morgan Hughes, College of Agriculture, made addresses on the advantages of co-operating along sane lines and so "helping to work out" distribution for the farmer. Both speakers urged the necessity of the community spirit in the counties in which they live.

Mr. Hughes amplified the important part the Government experiment stations are playing in successful farming.

"The forty-eight experiment stations are rendering incalculable help," he said. "The time is ripe for farmers to organize, but they must do so along sane and economic lines."

"The farmer who knows how to improve soil and feed stock scientifically has opportunities to double his profits. Soil building is the basis of all agricultural success."

W. W. Owsley, county agent of the Washington County Community League, will call a meeting of a committee of farmers to discuss the ideas set forth by Mr. Hughes and apply them to local conditions.

The meeting was held under the auspices of the State Development Committee of the Board of Trade and the Kentucky Bankers' Association.

## PROHIBITION REDUCES DRINKING AT CAPITAL

Frankfort, Ky., Aug. 4.—From an average of sixty-two for July, 1916, 1917 and 1918, the Police Court docket of Frankfort shows the number of arrests for drunkenness dropped to five the first month after wartime prohibition went into effect. And these were made during the first few days of July. Total arrests for all offenses were fifteen.

## WOMEN'S GARMENTS TO GO UP—IN PRICE

Chicago, August 4.—A 100 per cent. increase in the cost of women's gowns for fall and winter was predicted by delegates to the third annual convention of the Woman's Wearing Apparel Association here which began to-day.

Increased cost of labor and high prices of silk and cotton were pointed to as the basis causes.

## CALIFORNIA VINEYARD SOLD FOR \$475,000

Fresco, Calif., Aug. 4.—The Gain vineyard interests, comprising 400 acres of fruit and alfalfa lands near Visalia, have been sold. It was announced to-day, to J. E. Goree, Fowler, for \$475,000. The entire tract, it was stated, will be leased to a Japanese syndicate headed by the Sumida family. The plan is to sublease the ranch in small parcels to Japanese.

We have quite a curiosity at our office. An egg, which is the exact shape of an egg gourd. It was brought to our office by Mr. Dick McDowell.

## BLACK TO OPEN FIGHT ON PRICES; CITES TRUST LAW

Governor Black Will Name Men Who Are to Probe Profiteering in Kentucky

Now that the smoke of Saturday's battle of ballots has cleared, Gov. James D. Black will launch a vigorous campaign against the high cost of living. He announced his plans yesterday for his fight against high prices and profiteers.

A commission will be appointed to investigate the cause of high prices and make recommendations as to what action should be taken to bring about lower prices of foods, clothing and shoes, he said.

Kentucky has one of the most drastic anti-trust acts in force in any State in the Union and Gov. Black announced that if any profiteers are found they will be prosecuted to the full extent of the law.

"I am going to appoint a commission of prominent, level-headed Kentuckians from over the State to study the situation and devise a system by which we can get at the root of the evil and determine the best course to pursue in order to get desired results," he said. "The high cost of living is the big problem of the American people to-day."

It is probable that the commission appointed by the Governor will investigate the problem from a general standpoint first, before taking definite action. Then prosecuting attorneys and municipal authorities will be asked to co-operate with the commission in getting at the bottom of profiteering and in finding out the real cause of high prices of clothing, foodstuffs and all other necessities of life.

When the worry and stress of primaries are off of Gov. Black's mind and he has returned to Frankfort he will devote his entire time to planning details for his campaign, he said. The personal of the commission which he will appoint to carry on the war probably will be announced in a few days.

"The problem of high prices has reached the point where it is causing a great deal of unrest and is a vital question with every Kentuckian," he concluded.

## ANTI-KICK BEER WINS IN FIGHTS

Judges Uphold Right of Existence To Beverage

Washington, August 4.—Cities are meeting the wartime prohibition restriction in so many different ways that a survey of the situation has been made by the anti-war time prohibition forces in order to set before the country the facts in regard to the decisions which have been made in various Federal Court jurisdictions.

They claim a preponderance of legal sentiment against the jailing of citizens, under the present law, for the sale of 2.75 per cent. beer, which is still being sold in New York and other wet communities. Here is the finding:

"Fourteen United States Judges have dealt with this question. Ten of them have held that the statute does not forbid nonintoxicating beer. One Judge has held that the statute prohibits only intoxicating beer, but anything which is called beer must be assumed to be intoxicating."

"The remaining Judges have rendered decisions on the question of pleading, and on the main question involved have taken a neutral position, because they state it was not their duty to decide that question at the particular stage which the proceedings had reached when they were required to make a decision."

This line up, the anti-war time prohibitionists assert, is all in their favor, and they add, accounts for the fact that the Federal Government is not making wholesale arrests where 2.75 beer is being sold.

## AGED MAN DEAD

Mr. John Gray died at his home east of Hartford Sunday, August 3rd, at two o'clock p. m. Mr. Gray had a stroke of Paralysis a year or more ago and never fully recovered, and recently had the second stroke, and after lingering for twelve days he died. Mr. Gray leaves a wife and eight children.

four sons and four daughters; and four sister and four brothers to mourn his loss, besides a host of friends. He was 77 years old last May. After funeral services at the house, conducted by Rev. M. G. Snell, the burial services at Oakwood were conducted by the Munsions.

## ENTERTAIN FOR VISITORS

## WEDDING AT HOTEL

Miss Nola Beasley, age 17, of Beaver Dam, and Mr. Foster Kininnonth, age 21, of Little Bend, Ky., were married at the Commercial Hotel here last Saturday afternoon by Judge Cook.

## HIGH COST OF LIVING CAUSE MUCH SUFFERING

From Three to Six Million Children Suffer From Malnutrition is Charge

Washington, August 4.—From 3,000,000 American children are not getting enough to eat because their parents are unable, on their present incomes, to buy sufficient food, said a statement issued to-day by the Children's Bureau of the Department of Labor.

These are the children, the statement said, who often are pronounced by parents and teachers to be "delicate," "nervous," "lazy" or just "plain onery," although their true affliction is malnutrition.

The number of school children in the United States who are not getting sufficient food was placed at from 15 to 25 per cent.

"Thousands of American families," the statement said, "to-day are living on an income which does not permit an adequate diet."

## LIEUTENANT BALLARD HOME

Lieutenant Everett Ballard, who has been in France for some time has received his discharge and was here last week visiting his sister, Mrs. Willis Coppage near town. Lieut. Ballard was in service twenty-six months and held his commission a year. Lieut. Ballard is looking fine and says that he saw much of France but was not in Germany. He will go to Louisville soon where he has a position.

## 20,000 ALIENS PLAN RETURN TO EUROPE

Germans and Austrians Want To See Old Home-Poles Want to Go Back

Baltimore.—Fully 20,000 residents of Baltimore, most of them foreigners, are making preparations to emigrate from the United States and to once more take up their homes in their birthlands. It was disclosed to-day following a visit to the offices of several steamship agencies.

That the number of persons who are waiting to return to their native lands is not a negligible quantity is evidenced by the statement of an East Baltimore shipping agent that within a month more than 1,000 men and women have applied at his office for information regarding the resumption of passenger travel to various European countries.

The fact that for nearly five years there was no word of communication between this country and Germany and Austria-Hungary has led German and Austrian nationals to seek again the shores of those countries.

At least 2,000 radical Russians living in Baltimore, it has been estimated by a shipping agent, are ready to return to chaotic Russia and take up their residence under Bolshevik rule.

Many Poles, enthused with the spirit of the new Poland, are anxious to go back to that country.

## NEWSPAPER MEN HIT PIPE

Cub Reporter in South Bend, Ind., Sets Pace in a Unique War Savings Society

Hitting the pipe may be a terrible vice in Chinatown but not among the newspaper men of South Bend, Ind. There it comes pretty nearly being a virtue. For the newspaper men of that town have banded themselves together into the Pipe Smokers Thrift Club, each member of which is pledged not to smoke cigars until he has purchased \$20 worth of War Savings Stamps.

The plan was started by a cub reporter who really did not like cigars but the thrift argument with which he advocated his scheme were unanswerable and met with immediate and enthusiastic response.

Consequently when a South Bend member of the Fourth Estate takes his typewriter in lap to write a "piece for the paper," his first move is to fill up the old "dudeen." Some of the most effective effusions of one society editor have been inspired by the gurgle of a well seasoned corn cob.

Even political and banquet cigars are under the ban.

## \$25,000,000 U. S. WAR SUPPLIES IN FRANCE

Washington.—The War Department still had nearly 35,000 tons of small arms and field gun ammunition and airplane bombs to bring back from France on July 20, the whole amount being valued at \$25,000,000. It included 121,000,000 rounds of rifle and 13,000,000 rounds of pistol cartridges, nearly a million shrapnel and high explosive shells for three-inch guns and 103,400 shells for eight-inch Howitzers. This ammunition is in addition to the increasing stocks in storage at home.

## MEDICAL SOCIETY MEETS

The Ohio County Medical Society met at Sulphur Springs Saturday with seven Doctors and their families present. They had a regular Barbecue dinner with mutton and all the trimmings and spent the day very pleasantly at the Hotel which is under the management of Mr. Mogan who is improving and cleaning up the place in a very creditable manner. There were 27 present.

## EXPORTS PASS RECORD BY \$200,000,000

June Movement Staggers U. S.  
Officials Who See Goods  
Hunger Abroad

Washington, D. C., July 29.—Advances figures on exports for June, showing a total of \$200,000,000 in excess of the record month in the history of the country, have staggered government officials here.

While it was realized that exports were climbing by leaps and bounds, even the department of commerce exports who tabulated the statistics were not prepared for the tremendous showing indicated by the figures.

The June exports totaled \$918,000,000, as against \$484,000,000 in June, 1918. The record month previously was in April of this year, when the total was more than \$700,000,000.

### Three Times 1914

The June figures bring the total for the fiscal year ending June 30 up to the huge sum of \$7,225,000,000, as compared with \$5,920,000,000 for the fiscal year ending June 30, 1918. This is more than three times the exports for 1914, the last normal year.

Exports since the signing of the armistice are estimated at about \$5,000,000,000. The excess of exports over imports for the fiscal year, 1919 was \$4,129,000,000, against \$3,000,000,000 the previous year and less than \$500,000,000 in 1914.

Imports for June were valued at \$293,000,000, a falling off from the total of \$329,000,000 recorded for May, but an increase over the \$260,000,000 for June of the previous year.

Total imports for the fiscal year just closed are placed at \$3,096,000,000, as against \$2,345,000,000 for 1918.

### Shock to Redfield

The June export figures made a deep impression upon Secretary of Commerce Redfield when they reached his desk. He stated that the significance in the figures as respects the financing of these exports and the monumental task confronting the nation should be sufficient to bring the country to a realization of a crucial situation.

"I am frankly shocked by these figures," said Secretary Redfield. "There might be a little tendency to exult over them, but the real significance is a deeper one and more of a serious nature."

### Have We Vision?

"The figures involve a tremendous responsibility and opportunity. Some of our bankers see what is necessary in the financing of these exports, but others have not yet waked up to it. When I saw these figures I wondered if we had the vision to grasp the situation."

"The United States of America is ahead of its financial and commercial leaders. We are loaded with wealth. We have got gold, goods, credits, and equipment—everything the world wants. The world is starving for what we have."

"I have the case of Poland before me now. Poland has 5,000 miles of railroad and no cars or locomotives. Poland wants cars and locomotives from us, but some means must be provided by which they can be paid for. Whoever gets that business will keep it for all time, because there cannot be a mixing of standards in railroad equipment. Have our manufacturers and bankers got the vision to handle the situation?"

"The world has had made in it an enormous commodity vacuum. We have used up in war vast quantities of commodities, and at the same time we stopped millions of men from producing. The world is literally starving, not only for commodities but for means to buy them because the destruction of wealth has destroyed credit."

"In that position we have the commodities and the credits. Are we big enough for the job?"

"This country was never so wealthy as today. Here is the call of the world to America just as truly as when the Germans were forty miles from Paris."

The department of commerce figures made public today show that the removal of wartime restrictions caused a decided increase in the exports of gold, from less than \$2,000,000 each in April and May to \$37,000,000 in June. Gold exports for the fiscal year amounted to \$117,000,000 against \$191,000,000 for 1918. Exports of silver tell off from \$29,000,000 in May to \$13,000,000 in June, but increased from \$139,000,000 for the fiscal year 1918 to \$301,000,000 for 1919.

## SOLDIER GIVEN ORDERS TO FIRE AIRPLANES

New York.—The sub-committee of the house of representatives, headed by Royall C. Johnson, of South Dakota, which has been investigating cruelties practiced upon prisoners in American prison camps abroad, turned its attention here today to the destruction of American army property in France under the direction of American army officers. The first incident taken up was the disposition of 100 airplanes at Colombes-les-Belles.

The first witness, Paul L. Lockwood, of Stamford, Conn., formerly a lieutenant of aviation in the 1st Pursuit Group, testified that upon returning to America he met a number of his colleagues in Garden City who told him that the planes had been damaged and then burned. The engines were chopped out, the witness said his informers told him, only the gas tanks and radiators being saved. The planes then were thrown into a pile and burned. While the fire was in progress armed guards patrolled the vicinity to prevent photographs being taken, according to the witness, who estimated that the salvaged parts were worth about "15 cents each." Some of the machines, he had been told, had flown only twenty minutes.

Alfred T. Rorer, who was a first sergeant in the 1st Pursuit Group, told the committee that while he was at Colombes-les-Belles in May he received orders to detail from fifty to seventy-five men for this work of destruction. When he left the camp to return home, he said, the work of destruction was still going on and he saw the ruins of a number of the planes.

Chairman Johnson then ordered two cablegrams read into the evidence. One was from Gen. March to Gen. Pershing inquiring about reports of the destruction of government property and the other Gen. Pershing's reply, denying that the reported destruction had taken place.

## NATION-WIDE FOOD COST PROBE URGED

Columbus, Ohio.—Recommendation that the food cost investigation launched by Ohio be made nationwide in its scope was made by State's Attorney General John G. Price at a conference with county prosecuting attorneys here today.

Such a nation-wide probe will be urged by Mr. Price at the conference of State Attorneys General at Boston September 3. Data collected by county grand jury investigations in Ohio will be assembled by the Ohio Attorney General and presented to the national convention of Attorney Generals.

Gov. James M. Cox, addressing the conference of county prosecutors, stated that it may be necessary for the State to create a department of food control and enact new laws to control profiteering.

"If we find that in the commercial relations between men the lust for gain is satisfied by artificially created privileges, then the common law must be invoked to bring it to an end," the Governor said.

Commenting upon the proposal for a nation-wide investigation, Attorney General Price said:

"My personal opinion is that the State of Ohio should, through its officials, put forth every effort to discover the cause of the present feeling of unrest in order that it may take its place as a contributor to a great nation-wide movement which I believe is timely and which can be conducted along lines which will produce the best results obtainable."

Through a concerted demand for investigations by State Attorneys General, Attorney General Price said, he believed such action would result in the "creation of sentiment in the Congress of the United States which will provide for a general investigation throughout the country," as well as prosecutions by Federal authorities.

### PROBE HIGH PRICES

Washington, July 30.—Several investigations which may have an effect on the high cost of living are under way in the Department of Justice, Attorney General Palmer said today. He declined, however, to indicate their nature.

The attorney general said that while economic conditions were the fundamental cause of high prices, violations of laws designed to prevent concerted raising of prices also might be partly responsible.

"There is no doubt that the majority of the people are more prosperous than ever before, farmers and wage earners especially," Mr. Palmer said. "The men who have suffered from high prices have been the salaried man, the clerk, I wish we could do something to help him. I'm open to suggestions."

## WAR REVENUE ACT TO BE CONSIDERED

Matter to Be Taken Up By the  
Senate Finance Committee;  
Protests Received

Washington, July 30.—Formulation of a definite policy as to legislation modifying various provisions of the war revenue act of 1918 against which protests have been received from various parts of the country will be discussed at a meeting to-morrow of the Senate finance committee. The call for the meeting was issued by Chairman Penrose late to-day, following hearings on House bills repealing the soda water tax and substituting a tax of two cents a gallon on fruit juice beverages for the present 10 per cent gross sales tax.

In addition to the two bills now pending before the Senate committee, which certain Republican senators regard as "popgun" legislation, proposals have been made in the House looking to the repeal of the luxury taxes as well as certain of the excise taxes, especially those relating to imposts on candy, sporting goods and furs. Senate leaders, it is understood, feel that the question as to how far Congress is to go in this matter should be determined at once. Many senators feel that if one section of the bill is reopened there is nothing that would prevent modifications of other provisions being taken up, which as one senator said today, would bring a "Pandora box of trouble."

Owing to the House recess Saturday for more than a month, members of the Senate committee said tonight the committee would take no final action upon the soda water and fruit juice tax bills before September at least.

The committee tomorrow is expected to discuss also the question of tariff legislation to some extent, although Senate Republican leaders believe that it would be unwise to take any action along those lines at this time, owing to abnormal business conditions. They also doubt whether any such legislation could be enacted at the present extraordinary session.

## CHRISTIAN ENDEAVORS ENDORSE THRIFT

California Organization Adopts  
Resolutions to Aid in W. S.  
S. Campaign for 1919

The attitude of church organizations toward the movement for thrift and savings is exemplified in a resolution adopted recently by the Christian Endeavor Union of California. The resolution authorized the Citizenship Department to co-operate with the California Savings officials to make the 1919 thrift movement a success. The resolution follows:

"Be it recommended by the California Christian Endeavor Union that it fully endorse and urge that, as essential to character formation, to the welfare of the American people, and to the promotion of a national habit, the practice of the national program of thrift instruction, the organization of savings societies and the sale of Thrift Stamps and Savings Stamps become a part of public procedure; and that the Citizenship Department of the California Christian Endeavor Union be named to co-operate with each state division of the War Savings Organization for California toward making the government plan of 1919 a success."

## NEW MEXICAN POLICY

## SOON EXPECTED

President Wilson Said to Have Promised Allies Protection For Their Interests.

Washington. —President Wilson just before returning to this country from Paris, gave assurances to Great Britain and France that steps would be taken by this country to protect foreign interests in Mexico, according to information obtained from usually well informed sources here.

There are many indications that this report is true. In Administration circles the story is not denied, while at the same time it is declared positively that the congressional probe into the Mexican situation will not force the hand of the President.

It is said that just prior to President Wilson's departure for home a group of Canadians with interests in Mexico, headed by those interested in the Mexican & Northwestern railroad, sent a frantic cable to Sir Robert Borden urging that something be done about Mexico.

They are said to have received a cablegram in reply stating that President Wilson was willing to take a stronger stand on Mexico and protect foreign interests. Actually, it is said the group of Canadians included all sorts of interests, but the railroad mentioned took the brunt, since reprisals could do it little harm, it already having suffered all that was possible.

British Offer Aid. According to the report Great Britain submitted an offer of joint intervention in Mexico. This was positively refused by President Wilson. It is said, but the British were reported as satisfied with the assurances they received.

Protection of the great oil districts near Tampico is of enormous importance to Great Britain, of smaller, but still great consequence to France and of potential interest to Italy. This Italian phase as reported from Paris to Washington is very interesting.

The Italian Government, seeking additional revenue, has conceived the idea of making the sale of fuel in Italy a Government monopoly. Italy sent emissaries, it is declared, into the Mexican oil fields recently to determine the advisability of buying properties with a view to the Italian Government controlling the oil. Two if her emissaries, it is declared, were robbed by bandits while not far from Tampico, thus bringing the lawless condition of Mexico sharply to the attention of the Italian Government.

It is common knowledge that virtually every company is paying large sums to the leaders of bandits in the neighborhood as a price of protection.

New Policy Expected. The Carranza Government, before it was recognized, declared that all damages caused by the revolution since the Diaz regime was overthrown would be met and paid in full. After recognition by the United States, this decree was superseded by another, by which only certain claims—and these very difficult of proof—would be considered.

Many evidences of late show that the Administration is planning a new policy in regard to Mexico. Not the least significant is the appointment to the command of the Southern zone of Maj. Gen. Dickman, who until recently was the head of the American Army of Occupation on the Rhine and established in that position a high reputation for efficiency.

## COURT-MARTIAL SYSTEM UPHOLD BY ARMY BOARD

Wrongs Due to Inexperience of New Men, Secretary Baker Says

Washington.—One new article of war and changes in thirty others have been recommended by the special board of officers appointed early in the war to investigate the army court-martial system. In making this announcement to-day, Secretary Baker said he soon would transmit the board's report to Congress.

"It may be said," Mr. Baker's announcement said, "that the board, upon the whole, finds no radical defects in the system and it attributes the greater part of the just criticism not to inherent faults of the system itself, but rather to the inexperienced personnel called upon to administer it at a time of stress when the great thing was to get 4,000,000 men quickly in shape for the fighting line."

The board was composed of Maj. Gens. F. J. Kernan, who organized

the service of supply in France; John F. O'Ryan, who commanded the 27th New York National Guard Division, and Lieut. Col. Hugh W. Ogden, Judge Advocate, who served with the Rainbow Division.

Secretary Baker said these officers were selected after the controversy over the existing court-martial system began, because it was desired to have every class of American opinion represented. The board invited expressions of opinion on the army legal system "from all officers who had exercised general court-martial jurisdiction during the war and from all judge advocates who had been commissioned and functioned as such during the same period." It received and analyzed some 225 letters and formulated its own views as a result of its study of these statements.

"The board has submitted recommendations for changes in some thirty of the articles of war and has proposed one new article," said Mr. Baker. "The general trend of the work has been in the direction of a development of the present system and does not constitute a radical departure from the old one which had been growing and developing for centuries precisely as other systems of law have been so growing and so developing in the same period."

## THE DOLLAR NOW AND THEN

Money Saved Now If Securely Invested Will Have Double Buying Power in Days to Come

The saying has come up from the dark ages that the way to make money is to buy cheap and sell dear.

As the Government of the United States is pointing out to its citizens, one way to do this is to "buy standard securities when general prices are high and hold them for redemption when prices are lower. W. S. S. posters urge investors to use the present "low power" dollar to buy government securities and to receive in redemption at a later period "high power" dollars.

Here is how it works. Before the war you earned, say \$3.00 a day. Now you earn, say, \$5.00 for doing the same work. But you can't buy any more with your five dollars than you could with your three dollars—other prices have gone up in proportion to the price of your labor.

If, some years after the war is over, prices and wages decrease somewhat you may, for example, be earning and spending \$4.00 per day. Your War Savings Stamps become due and the Government gives you back your \$3, or the then value of nearly 21 days' labor, plus your \$17 interest. In terms of days' labor the Government is giving back four days more than it received from you besides your \$17 interest. This changing value of the dollar has made many persons richer and others poorer without their knowing exactly how it happened. Now is the chance to join the class of those who are going to be made richer, and one safe way to join is by buying the convenient government security—the War Savings Stamps.

## GOVERNOR OF OHIO URGES WHEAT SALE UNDER U. S. PRICE

Gov. Cox Urges Wheat Sale Under U. S. Price. Columbus, Ohio.—The Government was asked to bear part of the burden of high cost of living by selling wheat under the price guaranteed the farmers by Gov. Cox, of Ohio, here to-day in an address before the County Producers in conference on curbing food prices in the State.

In addition, Cox advocated organization of a new department of the State Government which would confine itself exclusively to food production, price fixing, marketing and distribution.

Attorney General Price urged immediate sessions of special grand juries in counties where evidences of price and food manipulation was available.

"If the law is insufficient to curb the profiteer, then we should know it," said Cox. "If we do not possess the constitutional right to pass the legislation, then the facility is open to change of constitution."

## \$75,000,000 CAMPAIGN LAUNCHED AT LOUISVILLE

Southern Baptists Want to This Amount By December 7, 1919.

On Tuesday evening, July 22, at 8:30 p. m., following a meeting of the Executive Board of the General Association of the Baptists of Kentucky, two hundred and thirty people composed of the leading Pastors Laymen, and W. M. U. Workers of the State, met at Broadway Baptist Church, in Louisville, and formally launched the great "Baptist 75 Million Campaign." This is a southwide movement and is the proposed program for the next five years of work for the Southern Baptist Convention. The date of the drive of the Campaign is November 30 to December 7, and from now until then every effort will be made to prepare and organize for it. Of the 75 million dollars, Kentucky will contribute \$6,500,000 and this money is to be apportioned among the denominational work including Education, Hospitals, Orphanages, Ministerial Relief, State, Home and Foreign Missions.

## Outlines Campaign

At this get-together meeting, fifty-one of the directors for the seventy-five District Association were present and this was the most representative gathering of Kentucky Baptists ever assembled. Prof. Jno. L. Hill, of Georgetown College, who is the State Organizer and Director, outlined in a brief speech the plans for the Campaign and the next morning explained in detail the duties of each Director, and outlined the plans to make the drive a success, one of which was for the Association Director to appoint a Church Director in each local Church. In turn these local Church Directors will select captains of teams who will choose team members.

In addition to the speech made by Prof. Hill at this dinner, Rev. O. E. Bryan, Secretary of the State Board of Missions of Kentucky, spoke on "State Missions Projected" and said that the Baptists were solidly behind the program and predicted success. Dr. E. Y. Mullins, President of the Southern Baptist Theological Seminary, showed the "Challenge of the Great Task" and told of the new world after the war; Dr. J. W. Porter, of Lexington, in a very timely way explained this as a "Baptist Hour." Mr. George E. Hays, a member of the Campaign Commission and prominent layman of Louisville, spoke on the subject "The Spirit that Wins." Rev. J. R. Black, State Publicity Director, spoke on the enthusiasm necessary for the Campaign and of the need of entering into it wholeheartedly. Rev. C. W. Elsey, Chairman of the State Mission Board, presided as Toast master, and Dr. W. W. Landrum, Pastor of the Broadway Baptist Church welcomed the guests and spoke very optimistically of the Campaign.

In a meeting the following morning the W. M. U. Workers under the leadership of Mrs. Janie Cree organized for the women of the Southern Baptist Convention, outlined the plan of work for the women.

Ohio County Producers Urged Wheat Sale Under U. S. Price. Gov. Cox Urges Wheat Sale Under U. S. Price. ## ROAD TAX DEFEAT

The voters have again, and for the third time within less than a year, decidedly registered their opposition to the Road Tax proposition. According to our opinion, formed from expressions of men belonging to different political parties the continuous rejection of the question is not because of indifference as to road improvement, nor is it because of an unwillingness to contribute in taxes for the betterment of the county's highways. It is more from the lack of confidence in the fiscal agents of the county in the disbursement and application of the funds. In other words, the tax payers, many of them, are not favorably impressed with the Fiscal Court's manner of financing. They seem to think it costs too much for the results obtained. Too much consumed in compensating County officials and ex-county officials for supervising, constructing and etc.

Then, forcing the question so frequently, has become distasteful to many people.

Last November election, road tax submitted; March 8th, special election, road tax; then again Saturday making three elections on practically the same proposition in nine months. It costs money to hold these elections and the taxpayers foot the bills.

This is not all. The people are deprived of the privilege of seeing or knowing how their money is spent. This same fiscal court, by defiantly refusing to publish, as the law requires, a statement of receipts and disbursements—not merely a balance sheet, but an itemized statement in the paper having the largest circulation in the county—says in effect, that the tax payers have no right to know where their money goes. Yes, gentlemen, it is your duty, they say, to vote for and pay the taxes, but with that your rights end. We will expend the proceeds without your advice and it is presumptions, indeed, for you to demand a showing. Such actions on the part of the court are being condemned by the people, and have led one member, he it said to his credit, to announce that he proposes to resign. We sympathize with that member in his hopeless fight for the right. George Rowe is not of our political faith, but we, with all others who know him, admire his upright stand and his devotion to the interest of those who have entrusted him with office. As to the others, just wait and see what the people think of their official career.

We believe it was Lincoln who said, "If you like that sort of thing then that is the sort of thing you like." For these reasons it may be useless to force another vote on the Road tax until we have some other changes.

## HIGH COST OF LIV- ING OLD PROBLEM

While discussions and investigations may help in a limited way in regulating the prices of food, no really substantial reduction can be accomplished in violation of or contrary to the old law of supply and demand. It is no new problem but existed in the reign of the Roman Emperor, Diocletian, as long ago as A. D. 301 and maybe longer. There were many Theorists in those days who thought they could adjust prices, but all failed to obtain material relief, except that based on supply and demand.

In a report made more than 1,600 years ago the following interesting schedule of prices appears:

Wheat 33 cents a bushel; rye, 45 cents; beans, 45; peas, 74; oats, 22; best oil, 30 cents; salt, 74 cents; best honey, 30 cents a quart; pork, seven cents a pound; beef, five cents; lamb, seven cents; butter, 10 cents; fish, seven cents;

dry cheese, seven cents. Two cents would buy 10 cucumbers, 10 apples or 25 eggs. Eggs sold at eight cents a dozen and sheep's milk at six cents a quart.

The report also shows the following scale of wages: Manual laborers, 11 cents; Carpenters, 21 cents; Painters, 32 cents; Wagon Makers, 21 cents; Smiths, 21 cents; and ship builders, 26 cents. In addition to these wages the workers were accorded their "Keep." Elementary Teachers drew 21 cents per pupil per month, and the fee of a lawyer for presenting and finishing a case was \$5.50. When we consider that while the cost of wheat and other foodstuffs are from seven to ten times higher now, but that workers in the present day receive from twenty to forty times as much as the Romans of that day, we can see that the high cost living problem is not so serious as it was then. As some one has expressed it, "Not so much the high cost of living, as the cost of high living."

The majority given in this county for George W. Jolly over Republican machine candidate for Attorney General is a telling thrust at the party bosses who assumed the responsibility of naming the men to be placed on the ballot under the log cabin. It is an expression of righteous indignation of the voters who feel that they should have something to say as to their candidates for State offices. The truth is the slating scheme hatched-up by the self-appointed guardians of the Republican party is an evasion of the primary law which was intended for the very purpose of giving the voters a chance to express their choice for party nominations.

The mournful letter of our old friend, J. H. Thomas, must have created some sympathy among his friends as the road tax failed, and the agony expressed in his letter it seems was based on the erroneous assumption that the tax would carry in the county. The effect is shown by the vote in his old home precinct, Sulphur Springs, that went 17 against it, and in his more recent home, Narrows that rejected the proposition by a vote of 80 to 25. This illustrates the truth of the old saying that most of our troubles never really come.

Much has been said for and against the repeal of the Daylight saving law, but most of our folks are indifferent on the subject. As a rule the farmers do as we did when engaged in "Whooping up the gravel" on the old hillside farm. They gear up Old Dobbin at sun up and unhitch him at sundown, whether that be six or seven o'clock.

Warley, the negro who sought the Republican nomination for Representative in the Tenth Ward, Louisville, was defeated by Dr. Lewis Ryans, the latter's majority being 88. Warley says the machine used repeaters on him and that he is done with the Republican party. He also says that 40,000 negroes in Kentucky will vote the Democratic ticket.

While we think our ticket might have been made stronger by the nomination of different men in some instances, it stands head and shoulders above the hand picked ticket put up by the Republicans. With our party united there will be no uncertainty as to Victory for the Democrats in November.

We have heard of no sore spots in the Democratic camp. The friends of the defeated candidates will doubtless work as hard for the election of the nominees as they did for their favorites in the primary.

Smallhouse election officers counted their vote and delivered the returns to the Clerk's office before the vote in Hartford was counted. That was counting and coming some.

Jolly, Republican candidate for Attorney General, carried Ohio, Hancock, Hopkins, Henderson and Daviess. He likely won in many others as few counties reported the vote in that race.

A number of voters arrived at the polls too late to vote. It must be remembered that this is a fast age and we should adjust our Waterbury and whist-watches accordingly.

Our good friend Ab Yeiser thinks we will have another road tax election in November. Maybe so but we doubt it.

The Fourth Congressional District landed one winner in Frank E. Daugherty, of Bardonia, for Attorney General.

If all the numerous members of the black family vote for our nomi-

nee he will materially reduce the Republican majority in Ohio County.

By defeating Judge Hardin in the Eighth district, the Republican delegation is increased to four in the House of Representatives at Washington.

"Three strikes, and out," yelled umpire Tom Stevens when the curtains went down on the road tax question Saturday evening.

Grayson County voted down the road tax proposition.

John Henry was not here, but he "writ" a letter.

## WHEAT IN VARIOUS ASPECTS

With the promise two months ago of a record-breaking wheat harvest, Congress was urged to withdraw the guaranteed price, on the ground that to maintain it would cost the Treasury a billion dollars. The World pointed out at the time that something besides profit and loss and keeping faith with the farmer was involved. Wheat is a speculative crop and there can be nothing certain about it until it is in the bins.

Unfavorable weather in many sections has diminished the yield and impaired the quality to such an extent that, with great shortages abroad, there is a prospect of world scarcity rather than of the oversupply which was so confidently predicted. If Congress had removed all restrictions upon the market the Chicago Board of Trade, acting on the theory that there was to be an excessive production, would have heaped down the price and gained options on the entire crop. Now, exaggerating the damage by the usual methods of panic, it probably would be asking about \$4 a bushel for a commodity under its exclusive control.

Thus the wisdom as well as the honesty of maintaining the yield pledge to the wheat-grower has been fully demonstrated. Nothing in this situation, however, warrants the complaints of some Western farmers because the Food Administration is not paying them the fixed price for grain that fails to pass inspection. The Government did not guarantee either yield or quality. When it agreed to a minimum of \$2.20 a bushel, it said plainly that it meant "No." 1 northern spring wheat or its equivalent, and it has kept its word.—New York World.

## AFTER SIXTEEN YEARS

The Senate Foreign Relations Committee not only reports favorably the treaty by which \$25,000,000 is to be paid to Colombia but makes the report unanimous. For whatever it may reflect of a disposition to admit and atone for a great wrong done to a weak neighbor this is welcome.

It is sixteen years, lacking three months, since the trumped-up "revolt" at Panama through which, as President Roosevelt later said, "I took the Canal Zone and let Congress debate." And not until now has the United States got around to the point where it seems to be ready to make amends in some measure for this Prussian-like act of aggression and robbery.

The Government of the United States at that time and by that performance treated as a scrap of paper and tore up its treaty of 1845-8 by which the United States had guaranteed to Colombia its rights of sovereignty and property over the Isthmus of Panama, and Germany did no more than execute a grander imitation later on with the guaranteed neutrality of Belgium. The "necessity" which know no law in the later case was no less strongly pleaded for justification in the earlier case. But

## AUTO TOURS

The ideal time for a motor trip is during the month of August or early in September, and many motorists are now enroute.

To those traveling either East or West the ever popular "Motor-Steamer" trip in connection with C. & B. Line Steamers between Cleveland and Buffalo is very alluring. With the low round trip rate of \$7.50 and special service provided for automobilists the tourist is quick to take advantage of the opportunity of breaking the monotony of the land journey, enjoy a night of comfortable sleep on Lake Erie, make progress of 183 miles on his journey and awake refreshed and eager to resume his auto trip early the next morning.

The Great Ship "SEANDBEE" or modern Steamer "CITY OF BUFFALO" leaves Cleveland daily at 8:00 p. m., arriving in Buffalo following morning at 6:30 (Central Standard Time.)

These steamers also alternate in leaving Buffalo daily at 9:00 p. m., arriving Cleveland following morning at 7:30 (Eastern Standard Time.)

This \$7.50 round trip is made for automobiles 127 inches wheelbase or under (over 127 inches wheelbase, \$12.00) good for return within two days.

Rattlesnake Kills Zealot. Cleveland Harrison, of Colbert county, Ala., died a few days ago from the effects of bites by a rattlesnake which he allowed to strike him as a demonstration of his great faith in God. Harrison was a member of the sect called "Holy Rollers." During an evening service the minister announced that a man in the congregation had such faith that he would allow a rattlesnake to bite him, believing that he would be immune from any ill effects. A rattlesnake in a box was produced. Harrison came forward and grasped the snake just below the neck. The reptile struck him five times in rapid succession on the forearm. He became ill at once. Medical services were of no avail and after two days' intense suffering he died.

 Daddy (proudly)—My child, I painted the spots on the wooden orse.

Elsie—My grandpa has reached so age of 96. Isn't it wonderful?  
 Bobby—Wonderful nothing! Look at the time it's taken him to do it.

## THE PAY OF SOLDIERS

It may be a source of surprise to many people to learn that the American army was not the highest paid in the world war. The Anzacs had a very decided shade upon the Yanks in this respect, according to figures issued by the general staff. These show that the private soldiers of Australia, New Zealand and Canada received higher pay than those of the United States, although the Americans outranked Great Britain, Germany, France, Austria-Hungary, Japan and Italy in that order.

When the pay of American private soldiers was fixed at \$30 a month, it was generally supposed they would outclass all others. But it is found that Australia paid \$43.50 a month, New Zealand \$36.60 and Canada \$33. The lowest paid soldiers were the Italians, who received but 58 cents a month.

Among noncommissioned officers the United States ranked third in the rate of pay, corporals receiving \$36, sergeants \$38 and regimental sergeants major \$51. But Australia paid the most to her noncommis sioned officers, giving corporals \$72.90, sergeants \$76.50 and regimental sergeants major \$94.80, while Canada was next with pay of \$36 for corporals, \$45 for sergeants and \$54 for regimental sergeants major. It is stated by the general staff that the food and clothing allowances are very large ly the same for all armies.

Perhaps if all the circumstances, such as allotments to relatives, insurance, &c., were taken into consideration it would be found that the American soldier really received higher pay than is shown upon the face of the statistics. In any event it may be said that the government adopted a liberal policy in this respect, and the pay schedule was not subject to general criticism.

## WILSON'S TOUR TO WEST COAST BEING DELAYED

Will Not Leave Before August 15; To See More Republican Senators

Washington.—President Wilson will not leave on his speech-making tour before August 15, and possibly not until late in August. This was indicated tonight by a formal announcement by Secretary Daniels, after a conference at the White House, that the review of the newly organized Pacific fleet at San Francisco, originally set for August 15, had been postponed in order that the president might be present.

Shortly before Mr. Daniels conferred with the president, it was announced Mr. Wilson would resume conferences with Republican senators tomorrow. As there remain thirty-three Republican senators the president has not invited to the White House it is believed the conferences with those opposing the League of Nations, will require about ten days.

Mr. Daniels said informally he had received the impression the president will start his tour between August 20 and 30.

## BILL TO DEPORT ALIENS PASSED BY THE HOUSE

A bill to deport undesirable aliens under which the Government may send home enemy aliens now interned in this country, was passed by the House.

The vote was unanimous. The measure is designed to tighten up existing deportation laws and under its terms aliens who may be deported include enemy aliens at present interned as dangerous, but not convicted of crimes, and enemy aliens convicted of violation of various wartime laws.

Chairman Johnson, of the committee, in reporting the bill, said it developed at hearings that there were 517 unconvicted enemy aliens at Fort Oglethorpe, Ga., and Fort Douglas, Utah, and 150 convicted aliens who might be deported upon enactment of the measure.

Representative Nolan, Republican, California, declared that the place to handle the immigrant problem was abroad.

"Immigrants should not be permitted to board ship to come to our shores until their fitness is proved," said he.

## OWENSBORO MARKET IS SHORT OF CORN AT TWO DOLLARS A BUSHEL

The Owensboro Grain company states there is not much corn on the market at the present time, though it is receiving a few loads every day. The price in Owensboro is \$2 the bushel. In Daviess the farmers, if they have corn at all, do not have it in any great quantities now, probably from 50 to 150 bushels. The farmers of Daviess are bringing in their corn as they have time during the rush of the farm work.

Walter Botton corn growers on Monday sold 48,000 bushels of corn to the A. Waller Grain company, at \$2 delivered on the Ohio river bank. Of this amount 22,000 bushels belonged to Col. R. H. Coaper. This sale cleans up all salable corn on the river bottom farms in Henderson county at the highest price ever paid for corn delivered on the river.

"I presume you're mighty glad the war is over?"

"Well, I don't just know about dat," answered Mandy. "Cose I've gald to have my Sam back home an' all dat, but I jes' know I ain't never wize t' get money from him so regular as I did while he wuz in de army an' de government wuz handlin' his financial affairs."

## BEAUTY SECRETS!

Where she gets her good looks, her healthy skin, her pink cheeks, is known to every one, because it is apparent that it is not due to cosmetics, paint and powder. But the true womanly beauty comes from good health, and this good health is a woman's secret.

Health comes with good physical machinery and good spirits, an active digestion. A body free from pains and aches comes with a tonic known for over fifty years as the best "temperance" tonic and nerve for woman—namely, Dr. Pierce's Favorite Prescription. It can be obtained in any drug store in liquid or tablet form, or send 10c to Dr. Pierce Invalids' Hotel, Buffalo, N. Y.

Cleansing of the intestinal tract is important. Take castor oil or select a vegetable pill. Such a one is composed of May-apple, leaves of aloe, root of jalap, and made into tiny sugar-coated pellets, to be had at every drug store as Dr. Pierce's Pleasant Pellets.

## NOTICE TO TAXPAYERS

While the law requires each taxpayer to appear at our office and give a complete list of all his taxable property, for the convenience of those in remote districts, we will visit them at their various voting precincts. Watch for advertisement.

D. E. WARD, Tax Commissioner.

## NOTICE

On account of a break down was compelled to order a car of ice to supply the demand after Tuesday July 29, will have to sell ICE at the rates of \$1.50 per hundred weighed out. By the block we will sell at the rate of \$1.25 per hundred, weighed out. We will not sell any .5ct. pieces as long as the car ice lasts. The ICE situation all over the country is critical but we will do our best to supply the people at the above prices.

Messrs. J. D. Williams & Sons, Beaver Dam, Ky.

Gentlemen:

In reply to your request for my opinion of the De Laval cream separator, advise that I have been using the De Laval separator for the past seven months and I think it is the very thing that I have been needing for some time for I have made more on my cows in that length of time than I made all of my married life. It is less work and much more money for I can get all the cream out of the milk and if I churn it don't take more than half the time and the butter is much nicer and so firm. I had six gallons of cream and churned 18 pounds of butter. I didn't have to have a pint bowl but a dish pan to take it up in. This is the machine to make the money and it is so much less work. I wouldn't take what I gave for it and be without my DeLaval.

Signed (Emanuel Ward)  
Look for other testimonials in this column from your neighbors. They all tell you the same thing about the DeLaval, but you don't have to have other testimonials, the De Laval will testify for itself. Let us put one in your home and save that money you have been wasting. 98 per cent of the creameries of the world use the De Laval, WHY? For sale by J. D. ## Clothes for All Kinds of Young Men

ANYWHERE from 16 to 60 you see young men now-a-days; and the young man under twenty wants clothes different from those of the young man over forty.

## Hart Schaffner & Marx

are a great help to us in designing suits and overcoats to meet these requirements. Special fabrics, special designing, new ideas of style that the man of twenty can use and the man of fifty better not.

For every young man, "Prep" styles are right; youthful in appearance and, manly too.
